FINANCING™

powered by

Control, Flexibility, Peace of Mind

With a complete line-up of unique products providing flexible payment periods, easier access to finances throughout the year and the power of Canada's largest agricultural lender, Performance Financing™ solutions give you the financial freedom you need to run your farm business successfully.

Take control with Performance Financing solutions powered by Farm Credit Canada and Cargill. It's more than great financing, it's a new way to do business.

Choose the Plan that's Right for You

FoundationPlan™

A comprehensive financing solution, FoundationPlan™ allows you to take control over the timing of your farm business purchases while providing greater financial freedom and stress-free financing. With FoundationPlan you get:

- The freedom to make purchases up to 18 months in advance of repayment
- The ability to monitor the market, locking in at the best price while assuring availability of crop inputs like fertilizer, crop protection and seed
- Repayment options that more closely match your grain marketing cash flow
- An automatic renewal process and revolving line of credit
- A competitive financing rate

Flex²⁵Plan™

Your “everyday” financing solution, Flex²⁵Plan™ provides the financial flexibility you need to manage your ongoing farm purchases with competitive short-term financing. Flex²⁵Plan offers:

- Interest free period for your daily farm purchases (monthly purchases are interest free until the 25th of the following month)
- A competitive financing rate with zero retroactive interest
- The marketing freedom that comes from locking in at market prices that suit your needs
- Ideal financing for cash-strong growers who desire the convenience of making retail purchases on account

Canola NetworkPlan™

A “canola friendly” enhancement for your FoundationPlan or Flex²⁵Plan solution, Canola NetworkPlan™ gives you the payment flexibility to match your Identity Preserved Canola delivery needs.

Canola NetworkPlan provides repayment options that extend payment dates to match your crop input purchase payments with the cash flow generated by your canola crop.
