

Foliars pay in two ways

Be on top of things this season and receive a rebate

The growing season is full of surprises. Be ready to capitalize on the opportunity to give your crop the boost it needs with a foliar nutrient application.

How the rebate works:

1. **Prepay** for a qualifying product with Cargill **by March 31, 2025** and **receive a \$0.50/litre rebate.***
2. When applying herbicide this spring, **add your foliar product to the tank mix, kill weeds and feed your crop at the same time.**

Eligible Products:

YaraVita®	Taurus
Flex™	Precision Starter**
Last N™	Precision Growth
Hydrophos™	Precision Yield
Thiotrac™	Precision Health
Multicop™	Active GrainFILL™
Bortrac™	

*You will receive \$0.30/litre rebate if you only book a qualifying product by March 31, 2025. A credit will be placed on account in September, 2025. **Precision Starter is a seed dressing, not a foliar-applied product.

YaraVita is a registered trademark, and YaraVita FLEX, Last N, Hydrophos, Thiotrac, and Multicop are trademarks of Yara Canada. Taurus eligible products are manufactured by Active AgriScience Inc. and brought to market by Taurus. Active GrainFILL is a trademark of Active AgriScience Inc.
